OBJECTIVE

Motivated BCA student and aspiring front-end developer with foundational knowledge in JavaScript, ReactJS, HTML, and CSS. Seeking an internship opportunity to apply my technical skills in creating responsive web applications, while gaining practical experience in a professional environment. Eager to learn, grow, and contribute as part of a forward-thinking team.

SKILLS

Skills

Programming Languages:

JavaScript, C, C++, HTML, CSS

Frameworks & Libraries:

ReactJS, Redux Toolkit, Bootstrap

Development Tools:

Visual Studio Code, Git, GitHub Pages

Databases:

Basic knowledge of working with JSON-based APIs (for API integrations)

Web Technologies:

RESTful APIs, Responsive Web Design

Version Control:

Git (GitHub)

Other Skills:

Data Structures & Algorithms (DSA)

Problem-solving and Debugging

INTERESTS

Web Development & Innovation: Creating impactful, user-friendly websites with modern technologies.

Art & Creative Design: Integrating artistic vision to build visually engaging, functional sites.

Tech Exploration: Staying updated on emerging languages and trends in web development.

User-Centric Design: Crafting intuitive, seamless interfaces focused on user experience.

PROJECTS

Responsive E-Commerce Web Application project- <https://rishi-ally.github.io/Ecommerce-project/>

Description:

Built a responsive e-commerce site using ReactJS and Redux Toolkit, featuring dynamic product fetching, shopping cart management, and mobile-friendly design with Bootstrap. Deployed on GitHub Pages.

Skills Learned:

State management with Redux Toolkit

API integration and dynamic data fetching

Responsive design with Bootstrap

Version control with Git.

An website for AI and ML product design agency project-<https://rishi-ally.github.io/project/>

Description:

Developed a visually engaging website for InnovateAI, an agency specializing in AI and machine learning product design. The site showcases smooth animations and interactive elements, creating an immersive user experience. Although the website is not responsive, it features a modern design aesthetic that effectively communicates the agency's services and expertise in AI and ML.

Skills Used:

Web design and layout with a focus on aesthetics

Implementation of animations and interactive features for enhanced user engagement

Content organization and presentation

Responsive Portfolio website project -<https://rishi-ally.github.io/MyPortfolio/>

Description

A dynamic portfolio website showcasing my skills and projects with a mobile-first design. It is fully responsive, featuring engaging animations for an immersive user experience, making it easy for potential collaborators and employers to explore my work.

Skills Used

HTML & CSS: Structured layout with responsive design.

JavaScript: Interactivity and enhanced user experience.

ReactJS: Component-based architecture for efficient coding.

Redux: State management for dynamic content.

Animations: CSS and React libraries for smooth transitions.

React Router: Seamless navigation across different pages.
